

## **Each small part**

I used to walk in the shadows of my dreams  
I never realized that everything that seems so real is just a daydream

How can you know that everything is impossible  
Is it really inconceivable

**I tell you each small part  
Is a playing card  
In the puzzle of your life  
In the hustle of your life  
And baby play your life  
As if it would be  
The only one that you have  
The only one that you have**

I used to think that everything so real when I am dreaming  
But I found out that I'm just a poor boy on a wintersdream

How can you know that everything is impossible  
Is it really inconceivable

**I tell you each small part  
Is a playing card  
In the puzzle of your life  
In the hustle of your life  
And baby play your life  
As if it would be  
The only one that you have  
The only one that you have**

Oh come on play your life  
It's the only one you have  
Oh come on play your life

**I tell you each small part  
Is a playing card  
In the puzzle of your life  
In the hustle of your life  
And baby play your life  
As if it would be  
The only one that you have  
The only one that you have**
